"Job Hunters Guide" Now Available

7 Feb 1985

What is the best way to find a job in Utah? Who are the major employers and where are they located? What is the outlook for jobs in Utah and what are the average salaries?

Answers to these questions and others can be found in the newly released second edition of the "Job Hunter's Guide to Utah," published by the Utah

Department of Employment Security.

According to A. Barclay Gardner, Administrator of the Department, this is the most comprehensive guide ever published on the Utah job market.

For all job seekers, especially those unfamiliar with the employment scene, descriptions of Utah's major industries are provided along with information

on jobs, wages, and the employment outlook. For students and others new to the world of work, the "Guide" offers a wide variety of job search advice as well as an extensive section containing employment-related reference material. Also included in the second edition is information about high technology jobs in Utah. For newcomers to the Beehive State, facts of

Utah life—schools, recreation, and more—are discussed.

The "Job Hunter's Guide to Utah" is a sale publication offered through the Salt Lake Tribune Library, 143 South Main Street, Salt Lake City, Utah. Purchase price is \$3.50 plus tax if picked up from the Tribune Library and \$4.75 by mail. Copies are also being distributed to local schools and libraries.
